Independent accountants' review report

The Board of Directors and Stockholders
Hynix Semiconductor Inc.

We have reviewed the accompanying interim non-consolidated statement of financial position of Hynix Semiconductor Inc. (the "Company") as of September 30, 2009, and the related interim non-consolidated statements of operations for the three-month and nine-month periods ended September 30, 2009 and 2008, and changes in equity and cash flows for the nine months ended September 30, 2009 and 2008. These interim non-consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express a conclusion on these interim non-consolidated financial statements based on our reviews.

We conducted our reviews in accordance with the review standard for interim financial statements in the Republic of Korea. That standard requires that we plan and perform the review to obtain moderate assurance about whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying interim non-consolidated financial statements referred to above are not presented fairly, in all material respects, in accordance with accounting principles generally accepted in the Republic of Korea.

We have previously audited, in accordance with generally accepted auditing standards in the Republic of Korea, the non-consolidated statement of financial position of the Company as of December 31, 2008, and the related non-consolidated statements of operations, appropriations of retained earnings, changes in equity and cash flows for the year then ended (not presented herein); and in our report dated February 24, 2009, we expressed an unqualified opinion on those statements. The accompanying statement of financial position of the Company as of December 31, 2008, which is presented for comparative purposes, does not materially differ from the above audited statement of financial position.

Without qualifying our opinion, we draw attention to the following matters:

- (1) As discussed in Note 15 (1) to the interim non-consolidated financial statements, on July 12, 2005, the Creditor Financial Institutions ("Creditor Council") which took operational control over the Company since October 4, 2001, was terminated by entering into a special agreement between the Company and the Share Management Council (formerly, the Creditor Council). Under the special agreement, the Company is required to consult with the Share Management Council in advance on events that could have a significant effect on the Company's operations including (a) appointment and dismissal of directors, (b) adoption of annual budgets, (c) investments in subsidiaries, (d) mergers, acquisitions or other strategic projects, and (e) organization and operation of corporate

controlling structures. The special agreement remains in effect until the members of the Share Management Council substantially sell their equity interests in the Company.

- (2) As discussed in Note 15 (3) to the interim non-consolidated financial statements, in June 2002, the United States Department of Justice (“DOJ”) notified the Company that the DOJ had commenced an investigation if certain Dynamic Random Access Memory (“DRAM”) manufacturers had breached the US Anti-Trust Act. In order to settle the investigation commenced by the DOJ, on April 22, 2005, the Company entered into a plea agreement with the DOJ to pay a fine in the amount of US\$185 million in installments over the next five years without interest. Meanwhile, DRAM product users in the United States filed lawsuits claiming damages for the breach of the US Anti-Trust Act by the Company and Hynix Semiconductor America Inc. (“HSA”), its sales subsidiary located in the United States. In relation to the lawsuits, the Company reached settlements through separate negotiations with several major DRAM product Original Equipment Manufacturing (“OEM”) users and also reached an agreement with the direct purchasers class on April 29, 2006 to pay US\$73 million and subsequently with some direct purchasers on June 10, 2009 and on October 7, 2009 to pay US\$130 million. As of September 30, 2009, the Company continues to negotiate the settlements with the indirect purchasers class, 35 state governments in the United States and the direct and indirect purchasers class of three provinces in Canada. As a result, the Company recorded a liability amounting to US\$197 million as of September 30, 2009, which consists of the fine and estimated future losses expected to be incurred from such pending settlements. Furthermore, as of September 30, 2009, an investigation commenced by the European Union Commission (“EU Commission”) is in progress to determine whether the Company had breached the Anti-Trust Act. Separately, the EU Commission and the DOJ investigated the unfair transactions among certain Static Random Access Memory (“SRAM”) manufacturers and sellers, including the Company, and the EU Commission informed the Company in November and the DOJ in December 2008 that they closed their investigations. And as of September 30, 2009, in connection with the SRAM and flash memory products, several civil lawsuits have been also brought against the Company by the direct and indirect purchasers class in the United States and three provinces of Canada. As of September 30, 2009, the ultimate outcome of the lawsuits described above cannot be determined, but could have a material effect on the Company’s interim non-consolidated financial statements.
- (3) As discussed in ① of Note 15 (4) to the interim non-consolidated financial statements, the Company is a defendant in a litigation brought by Rambus Inc. (“Rambus”), a developer of high-bandwidth chip connection technologies, with respect to the alleged infringement of Rambus’ patents by the Company’s manufacture, sales, offer for sales, use or otherwise disposal of Single Data Rate (“SDR”) Synchronous Dynamic Random Access Memory (“SDRAM”) and Double Data Rate (“DDR”) SDRAM products. The litigation has been brought in Germany, France, the United Kingdom and the United States. In 2004, the European Patent Office revoked Rambus’ certain key patents subject to such litigation against the Company in the European Union jurisdiction. Accordingly, in 2005, the litigation in the United Kingdom was dismissed, the litigation in France ceased further proceedings, and the litigation in Germany has been deferred without any progress. Meanwhile, in connection with the litigation in the United States, on March 10, 2009, the United States District Court for the Northern District of California issued the final judgment that ordered the Company to pay for damages for the infringement of Rambus’ patent and to pay royalties of 1% for SDR SDRAM products and 4.25% for DDR SDRAM products manufactured or sold in the United States from February 1, 2009 to April 17, 2010, while denying Rambus’ request for injunctive relief.

The Board of Directors and Stockholders
Hynix Semiconductor Inc.

The Company appealed the court's final judgment to the United States Court of Appeals for the Federal Circuit on April 6, 2009. Meanwhile, the United States District Court for the Northern District of California accepted the Company's motion to stay of execution on the final judgment ruling that such execution should be stayed on the condition that the Company posts a bond and provides part of its Cheong-ju plant in Korea as a collateral while the Company pursues the appeal to the United States Court of Appeals for the Federal Circuit. This ruling prevents Rambus from seeking to collect its damages while the appeal is pending. Separately, Rambus also brought another lawsuit against the Company and its subsidiary in the United States by alleging that the Company and its subsidiary's DDR2 and Graphic DDR SDRAM products had infringed on Rambus' patents. Also, in 2004, Rambus filed a lawsuit against the Company, its subsidiary in the United States, and other major memory chip manufacturers alleging that the defendants kept Rambus' DRAM products from entering the market. As of September 30, 2009, the ultimate outcome of the lawsuits described above cannot be determined, but could have a material effect on the Company's interim non-consolidated financial statements.

Apart from the above litigation, as discussed in ⑤ of Note 15 (4) to the interim non-consolidated financial statements, the Company is in the midst of defending itself against other various lawsuits and claims regarding patent infringements. As a result, as of September 30, 2009, the Company recognized a liability for the expected future losses that are probable and can be reliably estimated. However, the final outcome of these matters cannot be determined, but could have a material effect on the Company's interim non-consolidated financial statements.

Accounting principles and review standard and their application in practice vary among countries. The accompanying interim non-consolidated financial statements are not intended to present the financial position, results of operations, changes in equity and cash flows in accordance with accounting principles and practices generally accepted in countries other than the Republic of Korea. In addition, the procedures and practices utilized in the Republic of Korea to review such interim non-consolidated financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying interim non-consolidated financial statements are for use by those who are knowledgeable about Korean accounting principles and review standard and their application in practice.

5. Investment in securities (cont'd)

- (*1) In the event a difficulty arises in measuring reliably the fair value of available-for-sales securities due to the lack of underlying data or credibility of data, the securities were accounted for at acquisition cost.
- (*2) The investments were deposited in an escrow account in relation to a pending lawsuit as of December 31, 2008. As the lawsuit was settled during the nine months ended September 30, 2009, 50% of the each individual investment was transferred to another investor and the remaining investment deposited in the escrow account was released.
- (*3) Investments in these entities were not accounted for using the equity method of accounting as each investee's total assets were less than ₩10,000 million threshold as of December 31, 2008 and the changes in carrying amount of each investment was immaterial.
- (*4) After liquidation of the specified money trusts, the Company is expected to obtain available-for-sale securities on the number of shares and ownership percentage as stated.
- (*5) Investments in these entities were not accounted for using the equity method of accounting as the investees are currently under liquidation proceedings as of September 30, 2009.

- (*1) Convertible bonds amounting to ₩539,353 million carry an early redemption option allowing bondholders the redemption of the issue on June 14, 2010 prior to the stated maturity date on December 14, 2012. The Company has no right to defer redemption of the bonds against the request from the bondholders. Accordingly, as of September 30, 2009, the convertible bonds were reclassified as part of current liabilities under Korean GAAP.

13. Pledged assets

Detail of assets pledged by the Company as collateral for long-term debt and other obligations as of September 30, 2009 is as follows (Korean won in millions):

Asset	Pledged to	Pledged amount
Property, plant and equipment (*1)	The Export-Import Bank of Korea and others	₩ 3,207,146

(*1) According to the terms of the syndicate loans borrowed in May 2007 and revolving credit facility obtained in July 2005, the Company is required to pledge additional tangible assets for the I-cheon facility acquired by the Company on a semi-annual basis.

Other than the guarantees provided to related companies, as described in Note 6, the Company also provided guarantees for indebtedness of employees amounting to ₩54 million as of September 30, 2009 and guarantees for indebtedness of a special purpose company, ProMOS N.H. Limited amounting to ₩60,000 million, for the period from August 21, 2008 to September 20, 2011.

Restricted deposits as of September 30, 2009 and December 31, 2008 amounted to ₩64,480 million and ₩48,503 million, respectively.

14. Other long-term liabilities

Other long-term liabilities as of September 30, 2009 and December 31, 2008 consist of the following (Korean won in millions):

	<u>₩ 88,129</u>	<u>₩ 107,830</u>

15. Commitments and contingencies

- (1) Special agreement with Creditor Financial Institutions' Council - On July 12, 2005, the Creditor Financial Institutes ("Creditor Council") which took operational control over the Company since October 4, 2001, was terminated by entering into a special agreement between the Company and the Share Management Council (formerly, the Creditor Council). Under the special agreement, the Company is required to consult with the Share Management Council in advance on events that could have a significant effect on the Company's operations including (a) appointment and dismissal of directors, (b) adoption of annual budgets, (c) investments in subsidiaries, (d) mergers, acquisitions or other strategic projects, and (e) organization and operation of corporate controlling structures. The special agreement remains in effect until the members of the Share Management Council substantially sell their equity interests in the Company.
- (2) Countervailing duty - In 2003, the European Commission ("EC") of the European Union ("EU") had determined that the EU's Dynamic Random Access Memory ("DRAM") product manufacturers had suffered damage from the Company's debt restructuring by the Creditor Council and, consequently, imposed 34.8% in countervailing duty on imports of the DRAM product manufactured in Korea into the EU jurisdiction. The EC adjusted the rate to 32.9% in April 2006, in accordance with a recommendation made by the World Trade Organization ("WTO"). However, on April 9, 2008, as a result of interim review initiated in March 2006, the EU determined to repeal the countervailing duty imposed on the Company's DRAM product, effective as of December 31, 2007. Consequently, importation of the Company's DRAM products manufactured in Korea into the EU jurisdiction is no longer subject to countervailing duty effective from December 31, 2007.

In 2003, the Department of Commerce ("DOC") and the International Trade Commission ("ITC") of the United States had determined that the United States DRAM product manufacturers had suffered damage from the Company's debt restructuring by the Creditor Council and, consequently, imposed 44.29% in countervailing duty on imports of the DRAM product manufactured in Korea into the United States. The DOC adjusted the rate of countervailing duty to 58.11%, 31.86%, 23.78% and 4.91% in its first, second, third and fourth annual reviews in April 2006, February 2007, March 2008, and February 2009, respectively. However, on July 1, 2008, the DOC and the ITC commenced the sunset review, and then, on October 3, 2008, they lifted the countervailing duty imposed on the Company's DRAM product retroactively to August 11, 2008. As a result, importation of the Company's DRAM products manufactured in Korea into the United States is no longer subject to countervailing duty. As of September 30, 2009, the fifth annual review is in process for the refund of countervailing duty that was overpaid in 2007.

In relation to a countervailing duty investigation against the Company as requested by DRAM product manufacturers in Japan in June 2004, the Japanese government made a ruling to impose a 27.2% countervailing duty on DRAM products that are manufactured in Korea and imported into Japan, effective on January 27, 2006. With respect to the ruling, on March 14, 2006, the Korean government filed a complaint to the WTO against the Japanese government alleging that the ruling made by the Japanese government was unfair and, on July 13, 2007, the WTO panel ruled that the countervailing duty imposed by the Japanese government was a breach of the Agreement on Subsidies and Countervailing Measures ("SCM Agreement"). On December 17, 2007, the WTO officially accepted the panel and the Appellate Body's report that the countervailing duty imposed by the Japanese government was found to be inconsistent with the SCM Agreement, and urged the Japanese government to follow the WTO's recommendation. As a result, on August 29, 2008, the Japanese government reduced the rate of countervailing duty from 27.2% to 9.1%; however, decided to maintain existing countervailing measures. The Korean government regarded this action as unfaithful observance of WTO's recommendation and, as a result, on September 23, 2008, a WTO dispute panel was established by the request of the Korean government. The Japanese government, however, requested to pause the dispute panel and the Korean government accepted the proposal, thereupon the dispute panel procedure was paused on March 5, 2009.

15. Commitments and contingencies (cont'd)

In addition, apart from the dispute panel, the Japanese government also initiated a Changed Circumstance Review to decide whether to lift the countervailing duty since October 15, 2008 by the request of the Company, and the Japanese government disclosed essential facts to the Company of recognizing the change circumstances on February 3, 2009. As a result, the final countervailing duty was abolished on April 23, 2009, and Japanese government has not imposed any countervailing duty on DRAM products manufactured in Korea by the Company since then. As of September 30, 2009, the refund procedure on the duty overcharged between 2006 and 2007 is in progress.

- (3) Anti-Trust Act - in June 2002, the United States Department of Justice ("DOJ") notified the Company that the DOJ had commenced an investigation if certain Dynamic Random Access Memory ("DRAM") manufacturers had breached the US Anti-Trust Act. In order to settle the investigation commenced by the DOJ, on April 22, 2005, the Company entered into a plea agreement with the DOJ to pay a fine in the amount of US\$185 million in installments over the next five years without interest. Meanwhile, DRAM product users in the United States filed lawsuits claiming damages for the breach of the US Anti-Trust Act by the Company and Hynix Semiconductor America Inc. ("HSA"), its sales subsidiary located in the United States. In relation to the lawsuits, the Company reached settlements through separate negotiations with several major DRAM product Original Equipment Manufacturing ("OEM") users and also reached an agreement with the direct purchasers class on April 29, 2006 to pay US\$73 million and subsequently with some direct purchasers on June 10, 2009 and on October 7, 2009 to pay US\$130 million. As of September 30, 2009, the Company continues to negotiate the settlements with the indirect purchasers class, 35 state governments in the United States and the direct and indirect purchasers class of three provinces in Canada. As a result, the Company recorded a liability amounting to US\$197 million as of September 30, 2009, which consists of the fine and the estimated future losses expected to be incurred from such pending settlements. Furthermore, as of September 30, 2009, an investigation commenced by the European Union Commission ("EU Commission") is in progress to determine whether the Company had breached the Anti-Trust Act. Separately, the EU Commission and the DOJ investigated the unfair transactions among certain Static Random Access Memory ("SRAM") manufacturers and sellers, including the Company, and the EU Commission informed the Company in November and the DOJ in December 2008, that they closed their investigations. And as of September 30, 2009, in connection with the SRAM and flash memory products, several civil lawsuits have been also brought against the Company by the direct and indirect purchasers class in the United States and three provinces of Canada. As of September 30, 2009, the ultimate outcome of the lawsuits described above cannot be determined, but could have a material effect on the Company's interim non-consolidated financial statements.

- (4) As of September 30, 2009, the Company's pending litigation is as follows:

- ① Litigation filed by Rambus - the Company is a defendant in a litigation brought by Rambus Inc. ("Rambus"), a developer of high-bandwidth chip connection technologies, with respect to the alleged infringement of Rambus' patents by the Company's manufacture, sales, offer for sales, use or otherwise disposal of Single Data Rate ("SDR") Synchronous Dynamic Random Access Memory ("SDRAM") and Double Data Rate ("DDR") SDRAM products. The litigation has been brought in Germany, France, the United Kingdom and the United States. In 2004, the European Patent Office revoked Rambus' certain key patents subject to such litigation against the Company in the European Union jurisdiction. Accordingly, in 2005, the litigation in the United Kingdom was dismissed, the litigation in France ceased further proceedings, and the litigation in Germany has been deferred without any progress. Meanwhile, in connection with the litigation in the United States, on March 10, 2009, the United States District Court for the Northern District of California issued the final judgment that ordered the Company to pay for damages for the infringement of Rambus' patent and to pay royalties of 1% for SDR SDRAM products and 4.25% for DDR SDRAM products manufactured or sold in the United States from February 1, 2009 to April 17, 2010, while denying Rambus' request for injunctive relief.

15. Commitments and contingencies (cont'd)

The Company appealed the court's final judgment to the United States Court of Appeals for the Federal Circuit on April 6, 2009. Meanwhile, the United States District Court for the Northern District of California accepted the Company's motion to stay of execution on the final judgment ruling that such execution should be stayed on the condition that the Company posts a bond and provides part of its Cheong-ju plant in Korea as a collateral while the Company pursues the appeal to the United States Court of Appeals for the Federal Circuit. This ruling prevents Rambus from seeking to collect its damages while the appeal is pending. Separately, Rambus also brought another lawsuit against the Company and its subsidiary in the United States by alleging that the Company and its subsidiary's DDR2 and Graphic DDR SDRAM products had infringed on Rambus' patents. Also, in 2004, Rambus filed a lawsuit against the Company, its subsidiary in the United States, and other major memory chip manufacturers alleging that the defendants kept Rambus' DRAM products from entering the market. As of September 30, 2009, the ultimate outcome of the lawsuits described above cannot be determined, but could have a material effect on the Company's interim non-consolidated financial statements.

- ② Lawsuit from Hyundai Heavy Industries Co., Ltd. - On July 28, 2000, Hyundai Heavy Industries Co., Ltd. ("HHI") sued the Company, Hyundai Securities Co., Ltd. ("HSC") and the former CEO of HSC at the Seoul Central District Court in connection with the Company's comfort letter relating to a put option provided by HHI to the Canadian Imperial Bank of Commerce ("CIBC").

On July 24, 1997, the Company sold 13 million shares of Hyundai Investment & Securities Co., Ltd. ("HSI") to CIBC. In relation to this transaction, HHI entered into a share option agreement with CIBC in which HHI was obligated to buy back the 13 million shares of HIS if CIBC exercised its put option. In return, the Company and HSC provided HHI with a comfort letter stating that HHI would not suffer any burden as a result of the transaction. The Company, in turn, received a similar letter from HSC in which HSC acknowledged that all of the above transactions were initiated by HSC and that HSC guaranteed that the Company would not suffer any legal or economic losses in connection with the above transactions. Upon the CIBC's exercise of its put option, HHI repurchased the shares in July 2000 and then filed a lawsuit against the Company and HSC claiming that the Company and HSC should compensate HHI for the repurchase price of approximately US\$220 million. In January 2002, the court rendered a ruling that the Company, HSC and the former CEO of HSC jointly and severally pay 70% (₩171,822 million) of the claim amount and interest thereon to HHI. In 2004, the Company paid HHI a total of ₩123,677 million, which represented the estimated portion of its share pursuant to the pronouncement of provisional execution of the ruling.

However, the Company made an appeal to the Seoul High Court on February 15, 2002 and, on June 14, 2006, the court rendered a ruling that the Company and HSC should pay approximately 80% (₩192,942 million) of the claim amount. With respect to the revised ruling, the Company paid HHI an additional amount of ₩1,926 million for the estimated portion of its share of compensation, including interest. The Company further contested this case by making an appeal to the Supreme Court of Korea on June 30, 2006 and in a third ruling, the Supreme Court upheld the second ruling in part for HSC and the former CEO of HSC. The Supreme Court, however, reversed and remanded the second ruling for the Company on the ground that the Company has the expense reimbursement obligation to HHI. On August 21, 2009, the Seoul High Court rendered a ruling that the Company should pay ₩167,219 million and related interest after deducting payments previously made by HSC, recognizing the obligation based on the comfort letter provided by the Company. Subsequently, the Company paid ₩86,226, in addition to the payments the Company already made to HHI in accordance with the first and second rulings.

HHI however made another appeal to the Supreme Court of Korea on September 18, 2009, claiming additional compensation of ₩13,136 million, and the litigation mentioned above is in progress. As of September 30, 2009, the ultimate outcome of the lawsuits described above cannot be determine but could have a material effect on the Company's interim non-consolidated financial statements.

In addition, HHI initiated a separate lawsuit in December 2004 seeking the Company, HSC and the former CEO of HSC to compensate for the taxes levied on HHI and any related losses incurred by HHI amounting to ₩48,770 million in connection with HHI's repurchase of shares. Subsequently, the Company has apportioned its estimated share of the loss with HSC and, including related accrued interest, the Company recorded ₩47,827 million as a liability as of September 30, 2009. As a result of the litigation described above, the Seoul Central District Court rendered its ruling on October 22 2009, that the Company, HSC and the former CEO of HSC jointly and severally pay ₩73,692 million. Subsequently, the Company and HSC paid the amount to HHI.

③ Lawsuit against Hyundai Securities Co., Ltd. ("HSC") - On August 27, 2009, Hyundai Securities Co., Ltd. ("HSC") filed a lawsuit against the Company to the Seoul Central District Court with respect to the lawsuit described in ② above, seeking the Company to pay ₩99,173 million and delay interest to HSC on the grounds that the Company has the ultimate expense reimbursement obligation. Separately, the Company filed a lawsuit against HSC to the Seoul Central District Court in connection with the agreed payment claim of ₩211,829 million and delay interest on the grounds that HSC provided the Company a comfort letter similar to what HSC provided to HHI in which HSC guaranteed that the Company would not suffer any legal or economic losses in connection with the transactions described in ② above, and the agreement for loss compensation. The lawsuits described above are in progress. As of September 30, 2009, the ultimate outcome of the lawsuits described above cannot be determined, but could have a material effect on the Company's interim non-consolidated financial statements.

④ Lawsuit against Korea Deposit Insurance Corporation - In June 2000, the Company agreed to provide Hyundai Investment & Securities Co., Ltd. ("HIS") with capital contributions in-kind consisting of the equity securities of Hyundai Logistics Co., Ltd., Hyundai Information Technology Co., Ltd., and Hyundai Autonet Co., Ltd., if HIS failed to recover from its equity deficit by December 31, 2000. These securities were deposited in escrow with three securities companies appointed by the Company and HIS. HIS failed to recover from its equity deficit by December 31, 2000 and, accordingly, in February 2001, the securities were invested in-kind to increase the capital of HIS. Portions of those securities were withheld from the investment in-kind and remained in escrow accounts with the securities companies as a provision for expected income taxes and other expenses to be incurred.

In February 2004, upon acquisition of HIS by the Prudential Group in the United States, the Company, HIS and Korea Deposit Insurance Corporation ("KDIC") agreed on the termination of HIS's rights and duties on the remaining securities in escrow accounts and the treatment of these securities to be resolved between the Company and KDIC.

The Company has made repeated requests to HIS and KDIC to return the uninvested portion of securities and proceeds from the disposal of Hyundai Autonet Co., Ltd. securities. The balance was not returned to the Company and, as a result, on December 30, 2005, the Company filed a lawsuit against KDIC to the Seoul Central District Court seeking confirmation of its ownership of the balance. The Seoul Central District Court,

however, made a ruling on March 22, 2007 that the Company was only entitled to a claim of ₩456 million of the balance and the remaining request was rejected. On October 24, 2008, the Seoul High Court ruled that the Company was entitled to a claim of 50% of the balance and the securities. On November 21, 2008, the Company appealed to the Supreme Court and the Supreme Court rendered the dismissal ruling of trial discontinuance on March 26, 2009. As a result, the second ruling that the Company won for the 50% claimed was irrevocably determined and a related allowance amounting to ₩20,671 million was reversed and reflected as a non-operating income for the nine months ended September 30, 2009.

- ⑤ Other litigation and patent-related claims - Apart from the above litigation, the Company is in the midst of defending itself against other various lawsuits and claims regarding patent infringements. As a result, as of September 30, 2009, the Company recognized a liability for the expected future losses that are probable and can be reliably estimated. However, the final outcome of these matters cannot be determined, but could have a material effect on the Company's interim non-consolidated financial statements.
- (5) Technology and patent license agreements - The Company has entered into a number of patent license agreements with several companies. The related royalties are paid in a lump sum or running basis in accordance with the respective agreements. Lump-sum royalties are expensed over the contract period using the straight-line method. Lump-sum royalty payable in the future for the above patent license agreements totalled ₩422,702 million as of September 30, 2009.
- (6) Contract for supply of industrial water - In March 2001, the Company and Veolia Water Industrial Development Co., Ltd. ("VWID", formerly, Vivendi Water Industrial Development Co., Ltd.) entered into a contract for the purpose of purchasing industrial water from VWID for 12 years from March 2001 to March 2013. The contract was subsequently extended to March 2018 in December 2006 and amended in March 2007 again due to the establishment of additional plants. According to the amended contract, the Company is obligated to pay an aggregate amount of ₩650,106 million (₩ 478,107 million as of September 30, 2009) as base service charges and an additional service charge calculated at a predetermined rate on the amount of water used from January 2007 to March 2018.
- (7) Repurchase agreement of Sithe Ichon power plants - The Company has previously entered into a long-term service agreement for the purchase of steam and electricity from Sithe Ichon Power Generating Corp. ("Sithe Ichon"). In March 2005, Hynix Engineering Co., Ltd. ("Hynix Engineering", formerly, Astec Co., Ltd.), the Company's subsidiary, entered into an agreement to purchase the power generating facility from Sithe Ichon for ₩119,000 million. In connection with the agreement, in July 2005, the Company entered into an agreement with Sithe Ichon and Hynix Engineering providing Sithe Ichon a guarantee for Hynix Engineering's performance under the purchase contract and also an agreement with Hynix Engineering to pay Hynix Engineering ₩56,319 million, which consisted of ₩39,106 million of compensation to Sithe Ichon for the early termination of the previously entered service agreement between the Company and Sithe Ichon, and ₩17,213 million of indemnity for expected losses from the planned disposal of a part of the facility. As of September 30, 2009 and December 31, 2008, the Company recorded the related liability at its present value of ₩6,625 million and ₩12,790 million, respectively. According to this agreement, the compensation for expected losses on disposal of assets above is to be settled based on actual losses sustained from the disposal, and accordingly, an additional loss could be incurred. The accompanying interim non-consolidated financial statements do not include any adjustments in relation to such uncertainty.

15. Commitments and contingencies (cont'd)

- (8) Strategic alliance with ProMOS - In January 2005, the Company entered into an agreement with ProMOS Technologies Inc. ("ProMOS") under which the Company provided ProMOS with the license to produce DRAM semiconductors using the Company's technology, for the payment of running royalty to the Company. In accordance with the agreement, ProMOS had been providing the Company with 300mm wafer products manufactured under the license. However, Promos was no longer able to continue its commitment as agreed upon in the agreement with the Company due to its financial difficulties. Consequently, ProMOS and the Company terminated the agreement and entered into a new settlement agreement during the nine months ended September 30, 2009 in which ProMOS shall compensate the Company for any breach on the original agreement.
- (9) Business cooperation with Numonyx - On August 5, 2008, the Company and Numonyx B.V. entered into an agreement to expand its joint development programs to broaden NAND product lines and to bring future product and technology innovations designed to address challenges facing NAND technology over the next five years.

16. Derivative financial instruments

- (1) Swap and forward contract - To hedge the operational foreign currency risk, the Company entered into cross-currency interest rate swap contracts i) with Korea Exchange Bank and Korea Development Bank on December 26, 2006 with maturity on December 26, 2009 in relation to unsecured bonds from a public offering amounting to ₩60,000 million and ii) with Korea Exchange Bank, Korea Development Bank and Woori Bank on May 25, 2007 with maturity on May 25, 2012 in relation to unsecured bonds from a public offering amounting to ₩150,000 million. According to the contracts, the Company pays floating rate interest and the notional principal amounts in United States dollars and receives fixed rate interest and the notional principal amounts in Korean won.

The Company also entered into a foreign exchange forward contract with Korea Exchange Bank with notional amount of US\$40 million on March 18, 2008. According to the contract, the Company settled US\$20 million each on October 31, 2008 and November 28, 2008, respectively.

The Company regarded these swap and forward contracts as transactions not qualifying for hedge accounting and the adjustment to fair value was reflected in current operations. For the nine months ended September 30, 2009 and 2008, the Company recognized a gain on valuation of derivatives amounting to ₩9,781 million and a loss on valuation of derivatives amounting to ₩62,639 million, respectively, from the swap contracts. For the nine months ended September 30, 2009 and 2008, the Company recognized a gain on derivative transactions of ₩3,768 million and ₩1,356 million, respectively, from the swap contracts. And the Company recorded a loss on derivative transactions of ₩274 million from the swap contracts for the nine months ended September 30, 2008.

- (2) Option contracts - The Company entered into option contracts for specified money trust benefit securities with financial investors on August 21, 2008. Financial investors invested on specified money trust in Korea Exchange Bank for underwriting 576,000,000 shares of common stock privately issued by ProMOS at specific prices and also have put options which give them rights to sell trust benefit securities to the Company. As of September 30, 2009, total amounts for the specified money trust are ₩120,000 million and the terms of the option contracts are as follows (Korean won in millions):
